

You are not seriously planning to allow Sinclair broadcasting to broadcast the anti-Kerry documentary as planned, are you? I mean, I know that Michael Moore produced Fahrenheit 9/11, which is clearly partison, but it did not play on TV which is free and easy to see. I support Kerry and I didn't see Fahrenheit 9/11 because I didn't have time, but if it was on TV I certainly would've watched it.

You must to do something to regulate Sinclair. If this program will be run, Sinclair must run something of equal time and equal value before or after it that is negative the Bush camp.

Thank you for doing your job.
